**SOMERSET ROSE NURSERY, Inc.**

P. O. BOX 608

NEW BRUNSWICK, NEW JERSEY

## *When Ordering Mum Cuttings:*

Please indicate the earliest date delivery will be acceptable and the maximum number of cuttings that can be handled in a shipment.

Our growers suggest — **for the best service** and in order **to assure delivery of cuttings when you want them**, it is necessary to have your order **at least six months in advance of shipping date**. Orders on shorter notice will receive the best possible attention. Changes or cancellations must be received at least thirty (30) days before shipment.

Where we are unable to ship very close to the requested delivery date, we will advise you of our grower's best estimate of delivery. We suggest that you advise whether substitutions will be acceptable, when giving the order.

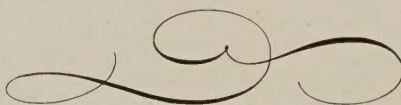

Fifty (50) rooted cuttings of a variety is the minimum that can be supplied. More than fifty (50) of a variety must be in multiples of 50.

Shipments will be sent Railway Express unless otherwise instructed.

When shipments arrive in an unsatisfactory condition for any reason — Notify your Express Agent at once and have him mark on your express receipt the condition of the shipment or give you a "Joint Inspection Report." Mail this to us with your complaint. We will then adjust the matter to your full satisfaction.

All cuttings will be taken from plants apparently free of "Stunt" the previous season. **We cannot be responsible for any cuttings where this difficulty may develop.**

We, Somerset Rose Nursery, Inc., give no warranty, expressed or implied, as to the productivity of any seeds, bulbs, or plants we send out and we will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seeds, bulbs or plants.

## Novelties and Newer Introductions

- |                       |   |                       |  |
|-----------------------|---|-----------------------|--|
| <b>Starbright</b>     | Early intermediate golden yellow single, flowering with California Yellow Daisy. Excellent for the cloth house and May and June flowering in the greenhouse. Matures October 25.  | <b>Popcorn</b>        | Intermediate white pompon flowering with Pinocchio. Outstanding white cloth house variety. Responds with Gold Coast. Has consistently out-produced all other varieties. The flower is completely double. Very resistant foliage. Clean upright growth habit. Matures October 5.          |
| <b>Golden Chord</b>   | Intermediate golden yellow pompon. The variety ranks with Gold Coast and Sunnyside and flowers about November 10.   | <b>Encore</b>         | Intermediate pure white pompon to flower with Little America and Sea Gull in the shading program. A more satisfactory variety than Vesper and is excellent for late September and October in the cloth house. Matures November 5.  |
| <b>Forty-Niner</b>    | High quality yellow round pompon. Flowers November 15. A very satisfactory cloth house variety. A good variety to be cutting when the competition is tough. Yellow Bushnell quality in Yellow Fellow season.  | <b>Moonglow</b>       | Intermediate white pompon. Fine for October and November flowering. Its natural season follows that of Vesper and finishes just ahead of Seafoam and Priscilla. Matures November 15.   |
| <b>Golden Harvest</b> | (DePetrus) Deep gold small pompon. Matures from the end of November into the first week of December. Has excellent growth and substance. A fine productive variety which keeps exceedingly well on the plant or after being cut.                              | <b>Crystal Beauty</b> | (DePetrus) A large solid pure white pompon with general all round perfection. Good sprays on strong petioles. Stem tall and vigorous. Foliage somewhat large. Matures November 25-30.  |
| <b>Champagne</b>      | Intermediate yellow single. A freer grower than Lodestar and about the same season. Responds with Goldsmith and Sunnyside when lighted for December through March flowering. Flowers December 1.  | <b>Silversmith</b>    | Large very pure white decorative, immediately following Cameo. Strong, free growth with no tendency toward blindness. Responds with Goldsmith and Omega in the winter flowering program from December through March. Matures December 10.  |
| <b>Cinderella</b>     | Intermediate yellow single flowering in Yellow Cameo season. No tendency to blindness. Crowns readily, producing well on compound sprays. Can be flowered with Omega and Yellow Cameo from December through March. Matures December 5.                        | <b>Snowcrest</b>      | (DePetrus) An intermediate solid white pompon with a green immature center, full rounded form and excellent substance. A fine and nice growing variety which matures December 10-15 making it useful for a much desired white pompon at that season. A good keeper and quite productive. |
| <b>Pristine</b>       | Early intermediate pure white pompon. Responds with Irene for July and August flowering. At its best when period from pinch to shade does not exceed 28 days. Does not spot. The best white for the earliest shadings in the cloth house. Matures October 20. |                       |  |

## Novelties and Newer Introductions

<b>Snowcap</b>	Intermediate formal type white pompon for Christmas and for January and February flowering. Growth habit an improvement over Snow and Revelation. Matures December 15.	<b>Festival</b>	Small red single for Thanksgiving. Also now being flowered from December through March. The earliest of a group of outstanding red singles in which the growth habit and production is greatly improved over that of varieties listed in the past.
<b>Butterscotch</b>	Intermediate golden bronze pompon with same season as Cassandra but with an improved growth habit. Very high quality hard pompon. Excellent for the cloth house when the competition is keen. Matures November 5.	<b>Merrymaker</b>	Crimson red single for the holiday season and for flowering through January, February and March. A little larger and a better flower form than Christmas Star. Matures December 20.
<b>Rubicon</b>	Early bronze red decorative to flower with Mary McArthur in July, August and early September. Superior color to Seneca and Red Rust during the summer period. Matures November 5.	<b>Ballerina</b>	Intermediate pink single. Early cloth house variety and similar in shading response to the California daisies. Better form and color than October Pink and has a more upright growth habit than that variety. Best with some disbudding. Resistant to Verticillium. Excellent for June flowering. Matures November 1.
<b>Samovar</b>	Rosewood bronze decorative flowering at the same time as Red Rust both natural and in the shading program. A good variety for September and October flowering. Matures November 10.	<b>Soprano</b>	Intermediate pink single to follow Ballerina in both the shading program and natural season. Fine for April, May and June flowering with Little America, and White Mensa. Matures November 15.
<b>Bourbon</b>	Intermediate rust bronze single. Very good form and substance. Flowers about the same time as Carnelia. Better growth habit and more productive than Carnelia, for December through March flowering group with Goldsmith, Cameo and Omega. Matures November 20.	<b>Defiance</b>	(DePetris) Large glowing, true orchid pink pompon of decorative type with a green immature center making a very pleasing color. Excellent free growth and good production. Matures December 20-25.
<b>Holiday</b>	Intermediate wide petaled red single flowering for Christmas. Freer growth habit than Sarong and therefore better suited for winter flowering than Sarong. Matures December 15.	<b>Queen's Lace</b>	Early white spider. Responds with Silver Sheen and does well in the year 'round flowering program from April-November. It should receive the same cultural treatment, spacing, etc., as Silver Sheen. A very durable flower. Has been very much in demand for June weddings this past season.
<b>Galaxy</b>	Intermediate bronze single. Same season as Viking and Cavalcade with an improved growth habit. Useful shade of bronze when lighted for the winter program. Matures December 5.		

### OUTSTANDING SPORTS OF WELL KNOWN VARIETIES INCLUDED IN THIS CATALOGUE

Yellow L. I. Beauty (Bussian Bros.)  
 Pink L. I. Beauty (Fred Laisy)  
 White Valencia (Robert Semran)

Yellow Riviera (C. R. Perkins & Son)  
 Bronze Riviera (Mikkelsen & Sons)

# Flowering Schedule

## PROCEDURE FOR YEAR 'ROUND FLOWERING OF PREFERRED VARIETIES

By use of lights and shade or a combination of both, it is possible to have Mums the year around. Several years ago we printed a suggested list of varieties and schedule for handling and we offer below an increased list of varieties. Our growers are prepared to supply cuttings the entire year provided orders are placed six months in advance.

PLANT	PINCH	LIGHTS OFF	SHADE	FLOWER
<b>Oct. 19</b>	<b>Nov. 9</b>	<b>Jan. 27</b>	.....	<b>Apr. 5-14</b>
VARIETIES: Barcarole, Pixie, Yel. Bushnell, Wh. Mensa, Mrs. Buckeley, Masterpiece, Br. Masterpiece, Cassandra, Butterscotch, Soprano.				
<b>Oct. 14</b>	<b>Nov. 4</b>	<b>Jan. 21</b>	.....	<b>Apr. 5-14</b>
VARIETIES: Princeton, Tally-Ho, Seafoam, Priscilla, Vesper, Brocade, Bittersweet.				
<b>Oct. 9</b>	<b>Oct. 30</b>	<b>Jan. 14</b>	<b>Jan. 14</b>	<b>Apr. 5-14</b>

# Carnations

## ROOTED CUTTINGS -- SEASON 1949-50

We strongly urge placing your order as early as possible. All shipments will be forwarded by Railway Express in rotation. We can promise no specific shipping date. 250 of a variety will be priced at the 1000 rate. No order for less than 100 cuttings can be accepted. Varieties marked \* are patented or restricted and agreements must be signed.

	Per 100	Per 1000		Per 100	Per 1000
<b>WHITE</b>			<b>DARK PINK</b>		
Col. Blimp. Large flowered white	15.00	100.00	*Sidney Littlefield. Rich glowing dark pink	20.00	150.00
Northland. Very popular white	12.50	100.00	Dark Pink Fisher.	10.00	80.00
Mercury. Sport of Giant Fisher. Flowers are much larger	15.00	125.00	John Briry. Brilliant dark pink	8.50	75.00
Olivette. Popular and profitable	8.50	75.00	Virginia Miller. Deep pink sport of Virginia	12.00	100.00
Shangri-La. Pure white. Rarely splits and an excellent keeper	20.00	150.00	*Jeanne Crain. (Beuerlein) Cerise pink, with three to three and one-half inch flowers, free growing, disease resistant. Should displace Virginia Miller	20.00	150.00
*White Sim. Pure white sport of Wm. Sim destined for popularity	15.00	125.00			
*White Littlefield. Available only 1950-51	20.00	150.00			
<b>LIGHT PINK</b>			<b>SCARLET</b>		
Hercules Virginia. Giant Virginia sport	15.00	125.00	*Jumbo Cardinal. A sport of King Cardinal that is much superior to the parent	15.00	125.00
*Light Pink Abundance. Light pink sport	10.00	90.00	Red Seth Parker. Excellent for Christmas crop	12.00	100.00
*Pollyana. Good salmon flesh pink with larger than average flowers	15.00	125.00	*Sondra. Free blooming novelty similar to Scarlet King	20.00	150.00
*Spirit of St. Louis. Light pink	15.00	125.00	*Tom Knipe. Full flowers slightly deeper than King Cardinal	20.00	150.00
Virginia Supreme. An improved Virginia with larger, better flowers	12.00	100.00	Victory Red. Clear color, large full flower	12.00	100.00
<b>MEDIUM PINK</b>			*Wm. Sim. Cardinal red. Very large flowers	20.00	150.00
*Citation. Striking rose pink with silver edges	20.00	150.00	Fire Chief. Sport of King Cardinal. Extra large flowers	15.00	125.00

Orchid Beauty. Variegated orchid	15.00	125.00
Pelargonium. Always in short supply .....	15.00	125.00
*Sylvia. White variegated pink stripes .....	20.00	150.00
*Symphony. Reddish purple stripes on a mauve background ....	20.00	150.00

Note: All Carnation varieties marked \* are patented or restricted and subject to signed agreements.

## Insecticides - Fumigants - Fungicides

The control of insects and diseases is becoming more simple with the introduction of the new sprays and fumigants. Red Spider, the bane of Carnation growers, is practically licked and most other insects are easily kept under control with a number of other effective materials.

### BENZO-FUME PRESSURE FUMIGATORS

Kills the eggs as well as the adult red spider. One pound will treat approximately 10,000 cubic feet. Just as easy to use as the Nico-Fume Pressure Cans.

1/2 Lb. Cans **\$1.75** for 6 — **\$3.20** for 12  
1 Lb. Cans **\$3.00** for 6 — **\$5.50** for 12

### NICO-FUME PRESSURE FUMIGATORS

The most popular method of nicotine fumigation. 1 lb. is sufficient for 250,000 cubic feet.

1/2 Lb. Cans **\$2.50** for 6 — **\$4.60** for 12  
1 Lb. Cans **\$4.25** for 6 — **\$7.95** for 12

### DETEX

A 25% D.D.T. spray that will control most chewing insects including thrip.

Quart **\$3.00**      Gallon **\$10.00**

### DOWSPRAY 17

Recommended as a spray to control red spider and thrip. A spray made up of 1 1/2 lbs. 50% Wettable D.D.T. and 3/4 lb. of Dow-spray 17 to 100 gallons of water will control most insects including red spider.

3/4 Lb. package (Makes 100 gal. spray) **\$ 3.00**  
Case containing 9 3/4 Lb. packages ..... **22.75**

(Note: We can also furnish D.N. Dusts No. 10 and No. 12)

### FERRADOW (Similar to Fermate and Karbam Black)

An organic fungicide that is highly effective in controlling many of the diseases that afflict greenhouse plants.

3 Lb. bag **\$2.75** ea.  
Case of 12 3 Lb. bags **\$24.50**

(Note: Zerlate and Parsate are also available)

### FULEX SOIL TREATMENT

Primarily developed to control Carnation diseases, it may also be used on other plants. Results have not been conclusive but we suggest you give it a trial. 1 Pint will be sufficient for complete year round treatment of approximately 400 square feet of greenhouse space of Carnations.

**\$7.50** per pint  
**\$28.00** per case of 4 pints — **\$52.00** for 8 pints

### FULEX SOIL TREATMENT B

Recommended to be used in conjunction with the above material for more complete control.

**\$6.00** per pint

## LETHALAIRE AERSOLS

Only the best materials and scientific accuracy are used in compounding the mixtures used in the various formulations. Each cylinder is thoroughly cleaned and valves and fittings are checked so that essentially each bomb you get is a new one.

### G-50 (U.S.D.A. Formula 104)

D.D.T. plus other insect killing chemicals. Controls thrip, aphids, midge, sowbugs and many others. Will treat 20,000 sq. ft.

Contents **\$8.50** Cylinder charge **\$3.75**

### G-52 (U.S.D.A. Formula 153)

Contains T.E.P.P. technical Tetraethylpyrophosphate. Apply only with gas mask protection. Will treat 400,000 cubic feet. Controls red spider, aphids and some mealybugs.

Contents **\$6.50** Cylinder charge **\$3.75**

### G-54 (U.S.D.A. Formula 151)

Contains Thiophos "3422" Parathion. Very deadly to insects, it will control most chewing and sucking varieties including red spider. Apply only with gas mask protection and protective clothing as recommended. Will treat 200,000 cubic feet.

Contents **\$10.00** Cylinder charge **\$3.75**

### G-57

Contains Tetraethyl-Di-Thio-Pyrophosphate. Somewhat safer on plants than the G-54 especially roses and tomatoes. May be used where sulphur is present and it is somewhat more effective in controlling thrip and mealybug. Will also control red spider, aphids and white fly. Will treat 200,000 cubic feet.

Contents **\$10.00** Cylinder charge **\$3.75**

**Extension Applicators** for applying the above with carrying sack. Set to treat 1,000 cubic feet in 4 seconds. **\$6.50**

### GAS MASK

Recommended types when using any of the above materials.

M.S.A. Type GMC-1 Canister **\$25.00**

Special M 3 Type GMC-1 Canister **\$12.00**

EXTRA GMC-1 Canister **\$3.25**

(Note: Cylinder charge credited upon return of empty cylinder when purchasing a refill.)

### P-40 (2% Sodium Selenate with Superphosphate)

Applied to the soil at the rate of 3 Lb. per 100 sq. ft., the Selenate is taken up by the plants. Insects feeding on the tissues are thus kept under control. Effective to control red spider, aphids, midge, leaf nematodes and many others.

25 Lb. **\$4.50**; 50 Lb. **\$9.00**; 100 Lb. **\$17.00**

(Note: We can also supply the pure Sodium Selenate which is somewhat more difficult to apply.)

### VAPO PHOS (Parathion or Thiophos "3422")

15% Wettable powder. Controls a wide variety of insects including red spider, aphids, thrip, mealy-bugs; most types of chewing and sucking insects.

1 Lb. Bag **\$2.00** 3 Lb. Bag **\$5.25**

### PARATHION DUST

Controls the same insects as above. Also, useful to control soil insects including centipede. Apply at the rate of 1 Lb. per 100 sq. ft. For ordinary dusting use 1 Lb. to 1200 sq. ft.

(Note: We recommend using a gas mask and rubber gloves when applying this material.)

1% 50 Lb. bag **\$ 7.25**

2% 50 Lb. bag **13.00**

### VAPOTONE XX (Double Strength)

An excellent spray material to control aphids and red spider, leaf eating worms, beetles, thrip, immature scale insects and other pests. Usual dosage for field and nursery work is 1-1600 or 1/2 Pt. per 100 Gals. water. Under glass 1-3200 dilution will give good control.

1 Gal. **\$11.75** ea. Case of 4 **\$42.50**

### ZERLATE

A zinc base fungicide, useful in preventing and controlling many disease organisms. It may be used in most places when Fermate is indicated and it is useful where Fermate is undesirable.

3 Lb. bags **\$2.75** — 25 Lb. drum **\$20.50**

### HEX-A-TOX

A Hexa-ethyl-tetraphosphate spray with spreader and sticker. Controls aphids, thrip, mites, mealy bugs, red spider and many other difficult to control insects. Bottle makes 100 gals. finished spray.

Bottle **\$2.00** — Case of 12 bottles **\$19.25**

*The material offered above is a comparatively curtailed list. Our regular catalog contains a complete list of materials for the control or prevention of most disease and insect attacks. Please do not hesitate to call on us for any information you may need.*

100-599 Bags Delivered **1.15 Ea.**

Seeds germinate faster. Virtually no damping off.

Perfect as a mulch for all plants.

## BIRD *Vita-Bands*

**VITA-BAND 40:** Growers are reporting outstanding results in vigorous well-balanced growth. Exclusive nutrient treatment affords a liberal supply of balanced plant food. Transplanting shock eliminated, saving 1 to 3 weeks set-back. Sturdy fibre resin construction maintains best moisture conditions with watering frequency cut 50%. Save space and growing time. Quick set-up and rapid removal.

**VITA-BAND 10:** Designed for growing periods of 8 to 10 weeks. A low-cost nutrient treated band especially good for annuals and vegetables. Produces growing results similar to Vita-Band 40.
